Full-Stack Certification.

Skills & Expertise

React JS, React Native, JavaScript, TypeScript, Redux-Toolkit, Rest-API, Github, Material UI, HTML, CSS, TailwindCSS, ShadCN, Node-JS, Express-JS, Mongo-DB

Projects

ARC Insurance [Mobile Application]

[ARC Insurance](#) 

Built and maintained the ARC Insurance mobile app using React Native, Redux Toolkit, and custom CSS. Developed features based on client requirements, integrated APIs to manage user insurance data, and optimized performance through regular bug fixes and enhancements—ensuring a seamless, interactive user experience.

Diligent Pharma [Web & App]

[Diligent Pharma](#) 

Developed and maintained the Diligent Pharma web and mobile applications using React, Redux Toolkit, Material UI, and CSS. Translated design concepts into functional features, integrated APIs, and optimized state management to streamline vendor qualification processes and support efficient study launches in the pharmaceutical and biotech sectors under senior developer supervision.

MoodyAtWork [Web Extension & Admin Portal]

[MoodyAtWork](#) 

Developed and maintained the MoodyAtWork web extension and portal UI using React, Redux Toolkit, Material UI, and CSS. Integrated APIs, designed intuitive interfaces, and optimized performance to enable real-time employee mood tracking and sentiment insights across admin, manager, and employee portals—delivered under senior developer guidance.
