## WORK EXPERIENCE

**Frontend Developer | Smartworks System**                     February 2024 - Present

- Designed and developed intuitive, responsive ERP user interfaces in Angular for optimal user experience.
- Customized sales and purchase module forms, aligning them with specific business requirements.
- Implemented validation and user-friendly design elements to enhance functionality and ease of use.
- Integrated real-time data updates for seamless data flow across ERP modules.
- Utilized APIs for efficient data fetching and integration, ensuring accurate and timely data display.
- Strengthened proficiency in HTML, CSS, JavaScript, and Angular while enhancing ERP system capabilities.

**Salesforce Developer | Tectonic LLC Private Limited**      March 2023 - August 2023

- Applied knowledge of Salesforce methodologies, frameworks, and core technologies to deliver effective solutions and system enhancements.
- Developed expertise in Salesforce Administration and Lightning Web Components (LWC), utilizing computational skills to create responsive, user-centered interfaces.

**GTP Officer - SQA | 1LINK Private Limited**                    August 2022 - March 2023

- Conducted testing and monitoring of MySQL server databases, ensuring data accuracy and system reliability for the "Sohni Dharti Remittance Program" (SDRP) app.
- Tracked program updates and points awarded, leveraging experience in database management and validation across multiple domains.

## PERSONAL PROJECT

**Mobile App Structure | Behance**

Designed a Mobile App Structure, focusing on intuitive UX, modern UI elements, and seamless user navigation.

**Rock, Paper, and Scissor Project | Github**

Developed a Rock, Paper, Scissors game in .NET, implementing game logic, user interactions, and decision-making algorithms.

**E-book Demo App (Android App) | Github**

Built an E-Book Demo App for Android, featuring a structured UI, smooth navigation, and an enhanced reading experience.

## CERTIFICATION

**UI/UX and Design Thinking:**

Completed UI/UX and Design Thinking training, enhancing skills in user-centered design, wireframing, and prototyping.

**Salesforce Certified Developer I and II:**

Pursued Salesforce Certified Developer I and II, learning Salesforce development, Apex programming, and Lightning components.

**HTML/CSS/JS for Web Developers:**

Studied HTML/CSS/JS for Web Developers, strengthening front-end development skills for building responsive web applications.
